

Feedback from clients we've worked with recently...

"Patrick coached me for a year and it was one of the best coaching experiences I have had to date. His ability to understand and realise what your coaching needs are impressive. I found that Patrick has a unique ability to determine if you need more guidance on a business level or if it is more personal development that is required. From his experience he is able to easily switch between business and personal needs as required. Patrick is very easy to talk to and from the get go we interacted as old friends would. The most significant part of my coaching was the fact that, like me, Patrick 'operates' from a trust and integrity base – these qualities are very hard to find! If you are looking for a genuinely authentic person with vast coaching experience look no further!!"

IT Project Manager, Pharmaceuticals, South Africa

"Patrick coached me for a year and he was fantastic! He was very quickly able to understand my personality and therefore employ the right coaching method for me. He has a vast amount of experience and knowledge and was able to teach me how to better deal with day to day issues as well as look at the bigger picture and plan for the future. He had the right balance between providing help and support when I needed it and teaching me to get to the answers myself. Patrick is very easy to get on with - my sessions with him flew by! If you're looking for a coach, look no further!"
